HSK 1-6
Vocabulary

This is a simple layout of 5003 vocabulary words from the Chinese language proficiency test, known as the HSK.
The Hanyu Shuiping Kaoshi (汉语水平考试), or HSK for short, is China's only standardised test of the Chinese language. It is designed for non-native speakers, such as foreign students and overseas Chinese, and approximates to the English TOEFL or IELTS test. An HSK certificate can be used throughout China as a evidence of language proficiency for higher education and professional purposes.

The HSK is administered by the Office of Chinese Language Council International, or Hanban, the short form of Zhongguo Guojia Hanyu Guoji Tuiguang Lingdao Xiaozu Bangongshi. Hanban is a non-governmental organisation affiliated with the Chinese Ministry of Education.

The HSK is administered in Simplified Chinese and comprises two tests: a written test and an oral test (taken separately). The test is held in China and other countries regularly throughout the year. The written test is divided into six levels from Level 1 to Level 6, while the oral test is divided into three levels: Basic, Elementary-Intermediate, and Advanced.

The HSK written test, which began as a paper-only test, has also been conducted online at select test centres since 2011. The current format was introduced in 2012, with the aim of making the test more comprehensive and communicative. The most notable change from the previous (2010) format was the inclusion of spoken and written components at all levels, not just Advanced. New question structures were also introduced.

The following shows the different levels of the HSK written test and an oral tests.
